Index rerum ad Vol. 5

Acide urique, étude de la cinétique d'apparition dans l'urine de l'acide urique $2^{14}C$, 134

Acute renal failure in the dog, concentrating mechanism and histology during the course of unilateral acute renal failure, 376

Adrenalectomized dogs, action of angiotensin in –, 265

Aldosterone deficiency in chronic renal failure, 90

Amino-acids (individual, plasma-free), in uremics, effect of hemodialysis, 339

Amyloidosis, renal, presenting as water loosing syndrome, 81

Analgesic nephropathy, evolution of –, 185

Angiotensin, action in normal, adrenalectomized and renal hypertensive trained dogs, 265

Arterio-venous anastomoses, functional significance in the canine renal allograft, 161

Arterio-venous fistula, intrarenal, and systemic hypertension following percutaneous renal biopsy, 24

Bence-Jones protein, effect on the *in vitro* function of rabbit renal cortex, 210

Bicarbonate reabsorption, effect of renal artery constriction on –, 362

Bicarbonates, excrétion en réponse à une surcharge alcaline au cours de l'insuffisance rénale chronique, 437

Calcium concentration in the kidney, 352

Calcium uptake by kidney tissue slices, 410

Cellules ciliées, mise en évidence dans le rein humain, 426

Chronic renal failure, aldosterone deficiency in –, 90

Concentrating mechanism and histology during the course of unilateral acute renal failure in the dog, 376

Electrolyte excretion, effect of water diuresis on – in hot climate, 124

Electrolytes, perméabilité du néphron de l'homme aux –, 217

Glomerular capillaries, fine structural basis for hemoglobin filtration, 7

Glucose excretion in man and dog, 43

Hemodialysis, effect on individual plasma-free amino-acids in uremics, 339

Hemoglobin filtration by glomerular capillaries, fine structural basis for –, 7

Hot climate, effect of water diuresis on electrolyte and hydrogen ion excretion in –, 124

Hydrogen ion excretion, effect of water diuresis on – in hot climate, 124

Hydropenia, medullary blood flow in –, 1

Hypertension and intrarenal arteriovenous fistula following percutaneous renal biopsy, 24

Hypertrophie compensatrice du rein, intérêt de la mesure du taux de fixation rénale du mercure pour son étude chez l'homme, 300

Insuffisance rénale chronique, excrétion des bicarbonates en réponse à une surcharge alcaline, 437

Medullary blood flow during hydropenia, 1

Natriuretic hormone, 401

Néphron humain, étude de la perméabilité aux électrolytes, 217

Nerve conduction velocity in relationship to the severity of renal disease, 290

Phosphorus excretion, change after human renal homotransplantation, 170

Polynévrite urémique, évolution après transplantation rénale, 31

Renal artery constriction, effect on tubular reabsorption of bicarbonate, 362

Renal biopsy, followed by intrarenal arteriovenous fistula and systemic hypertension, 24

Renal biopsy specimens of patients, absence of virus in –, 239

Renal failure, nerve conduction velocity in relationship to the severity of renal disease, 290

Renal hypertensive dogs, action of angiotensin in –, 265

Renal lymphatics, the intrarenal distribution, 454

Renin, the effect of sodium on renal renin and on glucose-6-phosphate dehydrogenase in the kidney, salivary glands and adrenal glands, 106
Renography, isotopic, with special reference to reproducibility and significance of patient position, 464
Sodium, effect on renal renin and on glucose-6-phosphate dehydrogenase in the kidney, salivary glands and adrenal glands, 106
Sodium reabsorption, effect of certain inhibitors on renal – and ATP specific activity, 474
Thyroxine treated rats, urinary concentrating ability in –, 282
Transplantation, renal, and change in phosphorus excretion, 170
Transplantation, renal, the functional significance of arteriovenous anastomoses in canine allograft, 161
Transplantation rénale et évolution de la polynévrite urémique, 31
Tubular reabsorption of bicarbonate, effect of renal artery constriction on –, 362
Tubular regeneration, a light and electron-microscopic study, 249
Urinary concentrating ability in rats treated with thyroxine, 282
Water diuresis, effect on electrolyte and hydrogen ion excretion in hot climate, 124
Water-loosing syndrome and renal amyloidosis, 81
